Ruta is a very patient teacher,
who finds ways to engage the classroom,
and keep the lessons interesting by
applying a variety of methods.

I have learned more than I could have imagined
but most importantly, I have had a lot of
fun doing it. Big thanks to Ruta for
making all the lessons fun and interactive.
I've always looked forward to the classes.

Ruta is not just very good at teaching the language itself,
she also knows how to make students mentally ready ~~and~~ and brave to
use the language. Although I'm still at level A1, but she
made me brave to read or at least try to read signs in the streets
and so on. I'm really thankful that she was my teacher.

Best teacher I've ever had.

As a person with learning difficulties

I can say that I've enjoyed this class more than any other.

I'm very satisfied with Rita. Her teaching approaches and patience overall really makes the whole course enjoyable. I am looking forward for A2 level course, if possible, with her.

Rita is very knowledgeable, kind and patient.

She made her best to make sure we practised

and I especially liked the fact that she tried

to diversify the materials and resources available.
